< TITLE OF YOUR THESIS >

Master of Science in (write your master's program)

Month Year

Name Surname

Matriculation number: XXXXXX

Supervisor: Prof. Dr. Begüm DEMİR

Advisor: Your Advisor

Eidesstattliche Erklärung

Hiermit erkläre ich an Eides statt, dass ich die vorliegende Arbeit selbstständig und ohne fremde Hilfe angefertigt habe. Sämtliche benutzten Informationsquellen sowie das Gedankengut Dritter wurden im Text als solche kenntlich gemacht und im Literaturverzeichnis angeführt. Die Arbeit wurde bisher nicht veröffentlicht und keiner Prüfungsbehörde vorgelegt.

I hereby declare that I wrote this thesis myself with the help of no more than the mentioned literature and auxiliary means.

Abstract

This template is intended to give an introduction of how to write diploma and master thesis.

Zusammenfassung

Da die meisten Leute an der TU Deutsch als Muttersprache haben, muss das Abstract zusätzlich auch in Deutsch geschrieben werden.

List of Tables

Table 1: Table example	2
------------------------------	---

1 Topic

Usually the introduction chapter is separated into subsections like 'motivation', 'objective', and 'outline'.

1.1 Motivation

The introduction should make people aware of the problem that you are trying to solve with your concept, respectively implementation.

1.2 Objectives

What kind of problem do you address? Which issues do you try to solve? What solution do you propose? What is your goal? 'This thesis describes an approach to combining X and Y... The aim of this work is to...'

1.3 Outline

The 'structure' or 'outline' section gives a brief introduction into the main chapters of your work. Write 2-5 lines about each chapter.

This example thesis is separated into 5 chapters.

Chapter 2 is usually termed 'Related Work', 'State of the Art' or 'Fundamentals'. Here you will describe relevant technologies and standards related to your topic. What did other scientists propose regarding your topic? This chapter makes about 20-30 percent of the complete thesis.

Chapter Fehler! Verweisquelle konnte nicht gefunden werden. describes the implementation part of your work. Don't explain every code detail but emphasize important aspects of your implementation. This chapter will have a volume of 15-20 percent of your thesis.

Chapter 4 is usually termed 'Evaluation' or 'Validation'. How did you test it? In which environment? How does it scale? Measurements, tests, screenshots. This chapter will have a volume of 10-15 percent of your thesis.

Chapter 6 summarizes the thesis, describes the problems that occurred and gives an outlook about future work. Should have about 4-6 pages.

2 Related Work

2.1 XXX

Table 1: Table example

Name	Vendor	Release Year	Platform
A	Microsoft	2000	Windows
B	Yahoo!	2003	Windows, Mac OS
C	Apple	2005	Mac OS
D	Google	2005	Windows, Linux, Mac OS

2.2 YYY

2.3 ZZZ

3 Proposed Method

This chapter describes the implementation of component X.

3.1 Basic Concepts

3.2 XXX

3.3 YYY

3.4 ZZZ

4 Data Set Description and Design of Experiments

4.1 Description of the Data Set

4.2 Design of Experiments

Figure 1: Project Structure Example

5 Experimental Results

This chapter describes the implementation of component X.

5.1 Results of XX

5.2 Results of YY

5.3 Results of ZZ

6 Conclusion and Discussion
